"Profits reached a new high of \$.84 per share for the first three quarters as compared to 1970's full year earnings of \$1.04. THANKSGIVING 1971 The Pilgrim Fathers of the Massachusetts-Bay Colony first celebrated Thanksgiving in November, 1621 to thank God for the bountiful harvest. Undergoing the rigors of the hostile wilderness, this small band of men and women carved out a future by the sweat of their brows and a few crude tools. With the help and assistance of some friendly Indians, new foods and fruits found their way to the festive board. The successful fruit of their labor were a tribute to their productivity and they, in turn, shared what they had pro-

duced with their Indian neighbors. It is this same driving force which has motivated this country in the years since the first Thanksgiving. It has enabled us to become the most prosperous and the most generous nation in the world. Through increased productivity we can continue to prosper and to share our boun-tiful harvest with those less fortunate.

Our Heavenly Father, We thank Thee for the gift

of responsibility.
Give us this day our daily
